SANAWAR, 5TH JANUARY, 1939.

No. 1, BOUNDS AND PASSES—The following directions relating to Bounds, Passes and Church attendance supersede all other rules on these subjects; they refer to girls only.

The general principle is that Housemistresses and Housematrons, working in collaboration, are responsible for the safety of the girls in their charge and are answerable to the Principal for their whereabouts. It is normally they who will issue passes, other than sleeping out passes, and regulate bounds; the Principal, if approached by any child or group of children, will not issue a pass but merely state that in the circumstances adduced he has no objection to a pass being given.

The following paragraphs relating to Bounds are intended to cover girls of Upper Fourth forms upwards but those of lower forms may be included at the discretion of the House Staff.

**1. Short Bounds.**

These can be used daily during games times by girls who are free.

Along the Short Back, by Jubilee gardens to the Pavement, by Chapel and the War Memorial to Nicholson House corner.

**2. Long Bounds.**

For use on Sunday mornings after church till 12-45; also, when permission is given, on mornings and afternoons of holidays till 5 o'clock. Down Donkey Slant to the Long Back, up Crater or along Lover's Hill but not below the road.

**3. Roaming Bounds.**

For use during holidays when special passes must be obtained. Pairs or groups of children are then allowed to go further afield but must inform their house staff of the direction they propose to take.

**4. Cemetery.**

The Cemetery is not to be visited except in the company of the Prefect or House Staff.

**5. Kasauli.**

Passes for shopping in Kasauli are to be given rarely; for the Cinema once a month only and then only when the film is a reasonable one.

SANAWAR, 5TH JANUARY, 1939.

6. Sunday passes expire at 5 o'clock. Passes to see parents who are visiting Sanawar may be given as under:—

Thursdays	...	3 o'clock till tea-time, except when due for games.
Saturdays	...	3 o'clock till tea-time, unless special permission is given to be later.
Sundays	...	from after Church till 5 o'clock.

7. *Church Attendance.*

Evensong for all; attendance at *one* of the morning Services or classes. Attendance at the eight o'clock Service is confined to those confirmed. Permission to depart from these directions will normally be given by the Principal only.

8. *Out of Bounds.*

The following places within the School Estate are out of bounds:—

Post Office, School Office, Hospital, Moti's Corner, Toll Bar and Secretary's Slant. Hospital passes are issued only by the Senior Mistress; School Office and Post Office passes by any Housemistress. Other Girls' Houses and Staff quarters are also out of bounds except on invitation but that does not apply to the Principal's House nor to the quarters of a girl's own Housemistress and Matron.

SANAWAR, 27TH FEBRUARY, 1939.

No. 63, PRINCIPAL—The Principal's movements on a normal working day are as follows:—

First two periods after chapel	...	In Birdwood School.
Rest of the morning	...	In his Library.
1-30 to 3-30	...	In office.
3-45 to 4-15	...	Library.

Staff wishing to see the Principal are advised to wait after morning chapel and make an appointment, preferably for the latter part of the morning; Free Half is also a possibility but on Wednesdays and Fridays he is otherwise engaged during that period.

Boys and Girls should come after afternoon school, i.e. 3-45 or after morning school on Thursdays and Saturdays, and Staff should avoid those times if possible.

The Principal would be glad not to be disturbed on Sundays till after the morning Service.

There is usually a chuprassi on duty outside the Library during working hours and he can inform Staff and others whether or not the Principal is engaged but if the chuprassi is not there, then those who wish to see the Principal should come straight through to the Library door and should not merely knock on the outer door for it is almost impossible to hear them from inside the house.

No. 64, APPOINTMENTS—To be Head of School:—

P. Licence.

Patricia Leyden.

No. 65, STAFF—Those in charge of forms should compile an alphabetical list of their boys and girls and forward a copy to the Principal as soon as possible. Transfers and adjustments will be made later.

No. 66, MILK—After this morning's experience it has been decided to modify the arrangements for the mid-morning milk. Will staff who are teaching during the third period please count the children actually in the room, put the number on a slip of paper and hang it on the name-plate beside the door. The dairy manager will then put the requisite number of bottles and straws outside the door before 11 o'clock, irrespective of forms. Milk will be sent to the Handicraft Room and Domestic Science Department daily in correct numbers.

**No. 67, DENTAL**—The Dental Officer will visit Sanawar on Friday and begin an inspection of the whole school at 9-15. All boys and girls should clean their teeth after breakfast.

The inspection will be carried out by classes, beginning with the Lower Second; one class at a time will be called out for inspection and the master or mistress who is teaching the class at that period will keep a record for the Dental Officer of the names of the children seen and his remarks concerning them. Negative instructions such as "no attention required" must be entered as well as positive recommendations.

As far as possible the inspection will be carried out in ascending order of classes but where this is not possible, *e.g.* a class being away at P. T., the next class will be paraded for the Dental Officer. Classes will fall in by the guns if the day is fine: if not then in the corridor.

Serjeant Flagg will assist the Dental Officer and will be present all morning to summon the form next for inspection. Forms must assemble and dismiss quietly and cause the minimum of disturbance to those who are working.

**No. 68, NOMENCLATURE**—Christian names or initials will be shown in front of boys' and girls' surnames when compiling lists, *e.g.* John Smith will be shown as J. Smith and not as Smith J., while Joan Smith will be like that and not Smith, Joan.

**No. 69, TESTS**—There will be no test on March 4th. Forms will do an essay 9-25 to 10-25 and Home letters from then till 11. From 11-10 to 12-20 the school will carry out the same work as in the last two periods of Wednesday mornings. 12-20 to 12-50, Free Half.

### NOTICES.

There are obviously two schools of thought about my initials ; the one school holds that E. A. has much to commend it since that is the way they are given at the top of School Orders, while the other school prefers A. E. as more musical. My own opinion (for what it is worth) inclines towards the former.

Similarly, of the four variations of the Medical Officer's name which are in common use, F. MacD. Byrn has many enthusiastic supporters, including the Medical Officer.

The usual general meeting of the Club will be held on Saturday at 2 p. m.

No. 115, WATER—The M. E. S. are now trying to build up a reserve of water in Sanawar for the season. This reserve has to be completed by the end of the month, but at the present rate of consumption it seems unlikely that the required amount will be reached. Would all concerned please do their utmost to economise water? Points that might be given particular attention are the quantity of water used in the boys and girls bathhouses and the use of bath water for gardens. Unless economies are made now we shall suffer for it later on as rationing will have to be introduced to make the water last out until the monsoon is well established.

No. 127, INDIAN PERSONNEL—The Principal, as Officer Commanding the Station, is ultimately responsible for all Indian personnel as he is for all other residents in Sanawar, but has for many years devolved some part of this responsibility on to the Medical Officer.

The Medical Officer's duty with regard to Indian employees, however, does not include the assignment of work or duties, hospital personnel and sweepers employed outside departments excepted. He is responsible to the Principal for their health, housing and general welfare; he also acts as a first court when there is a dispute between employees of two different departments, or when it is necessary to take disciplinary action against an Indian employee. He also acts for the Principal in cases involving misbehaviour among the private servants of Sanawar. Indian personnel are attached to various departments and the Head of this Department is responsible for assigning them their work and for seeing that it is properly carried out. When recruitment of a new man is necessary, the Head of the particular department should take the first steps in the matter and submit a recommendation to the Principal through the School Office; applications for leave, similarly, should be first investigated in departments and then sent on to the office on the proper leave form for ratification.

The School Secretary is responsible for all clerks, chowkidars and chuprassis wherever employed.

The Quartermaster for all workmen (except tailors) and storemen.

The Head Matron for all ayahs and sweepers in her department except those employed in the kitchen. The Head Matron G. S. is also responsible for all tailors.

Kitchen Matrons for all cooks, masalchis and sweepers employed in the kitchen.

The School Secretary is also responsible for Indian Servants quarters.

This order supersedes any other instructions that may have been given from time to time.

No. 147, WASHING—The dhobi contract will change from the 1st April. Departments should therefore exercise a careful check over washing returned by the contractor this week and report any deficiencies to the School Secretary not later than the 3rd April.

**NOTICES.**

Money raised during the holidays by means of collecting cards came to a hundred and fifty rupees only; this was disappointing for fifty of it was raised by the efforts of two boys. The total is now in the neighbourhood of four thousand rupees or little more than a third of the sum required so there is still a great deal to be done.

Boys and girls for whom camps are being arranged during the April holiday should write to their parents and obtain their consent to their going.

It is hoped that camps may be possible for :—

Rangers and Guides.  
Roberts House boys.  
Some sixty of the older boys.

I take the opportunity, however, of adding that none of these camps is yet definitely arranged and the third one, especially, bristles with problems as yet unsolved.

**NOTICES.**

I have to remind those boys who use Tilley Court on Sundays that they do so by courtesy of the Club members (who pay for the upkeep of the court) and that if the privilege is abused it will be withdrawn. So far as I can recollect, senior boys only were given permission to use the court, since they have not at present one of their own; I do not see any necessity for *girls* to use it. Two rules were infringed last Sunday, for instance; the first, that the Club Rooms are at all times out of bounds to boys and girls; the second, that no play is allowed before 10-30. I must also add that play must be confined to Tilley Court; I cannot imagine the Club permitting the other two courts to be so used.

At Music Recitals and similar functions in Gaskell Hall, the gallery will normally be reserved for Staff and their families and some thirty chairs should be there permanently. This does not mean that Staff who prefer the body of the Hall are precluded from sitting there.

**NOTICE.**

It is with extreme regret, as you can well imagine, that Captain Byrn and I decided to cancel all leave to Simla. We had, however, been notified by the Medical Officer of Health himself, that there was scarlet fever in the station and with so many young children among the Simla party, it would have been madness to carry on with the arrangements. We can only resign ourselves to making the most of the holiday in Sanawar and hoping for better luck in June.

No. 251, MOSQUITO NETS—There is a certain amount of mosquito netting in Stores which can be made up into nets for boys and girls as required. There is no intention of supplying every child in the school but some children are more eagerly sought after by mosquitoes than others and while some dormitories are entirely free from them, others are much infested. Matrons should, therefore, take note of such boys or girls as are being badly bitten and send in a "blue chit" for nets and poles for them.

SANAWAR, 22ND MAY, 1939.

No. 292, FIRE ORDERS—The following orders for dealing with a fire in Sanawar are issued in supersession of School Orders Nos. 68 and 116 of 1938 :—

1. When the Fire Alarm is sounded on a bugle, it concerns only the Fire Brigade; all other departments or dormitories will be roused by repeated whistle blasts or by repeated ringing of a bell.

2. The Fire Brigade is under the command of Serjeant Hare together with twelve boys. In the absence from the station of the Fire Brigade Commander, its charge devolves on the S. S. I. on duty. A nominal roll of the Fire Brigade will be posted on the B. D. notice-board and kept up to date.

3. On the Fire Alarm sounding, the Fire Brigade will at once double to the Quadrangle and fall in under the Fire Brigade Commander. If the Alarm sounds between Lights Out and Reveille, members of the Brigade will parade in sleeping suits, cardigans and running shoes. Practices at regular intervals will be carried out under the direction of the Chief Instructor who is responsible for the custody of the fire-fighting apparatus and for ensuring that every member of the Fire Brigade knows his duties.

The Fire Alarm will only be sounded under orders from the Principal, Medical Officer, School Secretary, Chief Instructor or the Fire Brigade Commander.

4. Should a fire break out in Birdwood School during School Hours, the Senior Master or Mistress present will have the School bell rung continuously; children will at once leave their form rooms under the direction of staff and in an orderly manner. They will fall in facing the School Building and await further orders. The same applies, with a few obvious changes, to an outbreak in Number 5.

5. An outbreak of fire must at once be reported to the nearest member of Staff or Prefect. If it occurs during the day and the building is an occupied one it must be immediately cleared of all occupants and the senior member present is responsible that the Fire Brigade is immediately informed.

The Mechanic incharge of the Power House must be notified of the particular quarter or building in which an outbreak of fire occurs. He will at once arrange for extra water pressure in that area and for the particular building to be disconnected from the electric mains.

If an outbreak of fire occurs at night in any building where school-children are sleeping, the senior matron or other adult in charge will immediately rouse all the occupants of the building by a vigorous ringing of a bell (Girls and Juniors) or blowing of a whistle (Boys). Children so roused are to put their sandals or shoes on their feet, put their top blanket round themselves and then fall in at a pre-arranged

spot well clear of the building. Section leaders (Seniors) or Matrons (Sparrowhawks and Juniors) are at once to count the children and see that they are all present; it is not enough merely to see that beds are empty, though this should be done also.

Some responsible person, Staff or Prefect, must be warned to take charge of the assembly while the person in charge of the building will go through every dormitory and bathroom to see that the place is all clear.

At the same time and as soon as the outbreak is detected some reliable individual should have been despatched to summon the Fire Brigade. (This applies to a real outbreak but not necessarily to practices.) A senior boy or girl should do for this duty and one such should be permanently appointed each year for each building *i. e.* one for each of Numbers 9, 10, 11, 12, 50, Holiday House, etc.

Two or three fire practices are to be carried out yearly; the person in charge of a building is also responsible for fire precautions there and for carrying out these practices. The first practice each year should be done in daylight but at least one a year is to be carried out at night.

6. The Medical Officer is responsible for fire precautions in the Hospital; in collaboration with the Nursing Sister he will ensure that two probationers are attached to each of the Boys, Girls and Infectious wards whose first duty, on an alarm of fire, will be to clear the wards, carrying bed patients where necessary. The first step, however, should be to send a message to the coolie lines and the second to notify the Principal. Two men from the staff of hospital servants should be instructed in the use of the Minimax.

7. The Quartermaster will draw up his own rules for dealing with an outbreak in Stores and for the salvage of Government property. The School Secretary will, likewise, draw up rules for dealing with an outbreak in the Office.

8. Should a fire break out in any Staff Quarter, a servant should be despatched with a brief written note to the Serjeant Instructor on duty who will assemble the Fire Brigade and deal with the out-break. At the same time, all school or private servants in the locality of the Quarter should attempt to put the fire out and salvage property. The Principal should be notified as soon as possible.

9. As soon as possible after term begins, the Chief Instructor will detail boys for the Fire Brigade while he and the Matrons in charge of buildings will explain carefully to their children what they are to do in case of fire.

10. Every attempt must be made to salvage Government property but this must be done by employing school coolies and other labour marshalled for the purpose. In no circumstances, will children be employed on this work or allowed to enter a burning building.

No. 300, OPERA—Copies of the score and libretto of the Gondoliers should be returned to the Office.

No. 301, FIRE PRECAUTIONS—Owing to the very dry weather we are now experiencing, it is necessary to take more precautions than usual against fire. Fallen pine needles are especially dangerous and should not be allowed to accumulate near, or around, quarters or other school buildings.

The Quartermaster will clear the area around school buildings and hill sides: compounds should be cleared by private servants of the staff occupying the quarter.

Those who go out picnicing are asked to be particularly careful and not to light fires or use stoves. All the territory around Sanawar belongs to Indian States and a fire caused by a member of the School might result in embarrassment to the school and perhaps to higher authority.

No. 302, WATER—Until the situation improves, water mains will be open during the following hours only:—

SANAWAR, 19TH JUNE 1939.

No. 370, EXAMINATIONS—It is proposed that boys who wish may take the Second Class Army Examination while attending this school; this is already done in the Duke of York's School, Dover, and comparable schools. The examination will normally be taken from the Upper Fourth Forms (A, B or C); the papers will be set and corrected by our own school staff but will be subject to revision by outside examiners. It will be taken twice a year at the same time as the school examinations and boys taking the Second Class Army Examination need not present themselves at the school examination for those particular subjects. Boys who reach a sufficiently high standard will probably receive a nomination to the Army Technical Schools, on attaining the correct age, without taking the special Technical examination. Candidates for the Second Class Army Examination must offer five subjects at least from those given below:—

English (two papers)

Mathematics

History

Geography

French

Science.

The two English papers count as one subject, the first being composition and the second on any set book. History may be of any period and is not confined to Imperial History; Physics may be offered instead of Science.

The candidate may take six papers if he wishes and the weakest will be rejected; in other words, a candidate offering six papers is in a better position than one only offering five.

The examination will be taken for the first time this December and boys proposing to enter the Service via Chepstow or any other Army Technical School will not, in future, be grouped in a special form.

No. 371, NEW ARRIVAL—The undermentioned may be expected on Saturday morning:—

“Goodwill Message from the Boys and Girls of New South Wales.

Dear Brothers and Sisters Everywhere,

We are very grateful for the messages of goodwill that have been received from boys and girls in other parts of the world. These messages are links of peaceful unity.

We think of all children as our brothers and sisters. We know that all would join happily in work and play if all could meet.

Our message is that we shall work and hope and live for peace, so that with friendliness everywhere all may be happy.

In this spirit we again send our wishes to the boys and girls of the world”.

In all sincerity,

The Children of New South Wales.

**NOTICES.**

The next Club Social will be held at 2-45 p. m. on Saturday and will take the form of a Tin and Bottle Tournament. If wet, there will be a Flag Whist Drive in Gaskell Hall at the same time.

These hot spells between the Rains are much enjoyed by the snakes of Sanawar who come out to sun-bathe. In spite of popular belief to the contrary, there are very few poisonous snakes in this station but those we have can be unpleasant so boys and girls, especially the younger ones, should be warned to be circumspect. The long grass and undergrowth of khud sides is a favourite lurking place; holes and crevices in rocks or walls are also good things not to put your hands into these days.

Owing to the number of bad rupees in circulation, it will not be possible for the School office to accept Queen Victoria rupees in future. Staff who have any of these rupees in their possession may arrange with the Kasauli Treasury for them to be changed if they are good.

It will be necessary to place some restriction on the numbers attending the Dance on the evening of the Fair. Boys and Girls of the Upper Fourths and above, therefore, may go if they wish but from the Lower Fourths boys only may attend and no one at all from forms below Lower Fourths.

The rooms involved are those on the main corridor, *i. e.* not the science laboratories; the Shell room will not be required either.

SANAWAR, 27TH JULY, 1939.

No. 461. SCHOOLS—After boys and girls have left Birdwood School, morning or afternoon, there is a number of mackintosh capes and coats left behind, sometimes as many as a couple of dozen. The sorting of these and taking down to Houses is somewhat of a burden on the chuprassis and form staff would assist if they would inspect their class-rooms before the children actually go below to see that these garments have been removed.

No. 462, EXAMINATIONS—It is confirmed from Army Headquarters that boys who obtain the Second Class Army Certificate and who wish to be enlisted as apprentice tradesmen may be nominated by the War Office for such enlistment. Lists of boys so qualified will be forwarded to Army Headquarters by the Principal in April and August.

The effect of this order is that boys who wish to enlist as apprentice tradesmen this year (1939) must take the examination in November but that any boy from Remove or Upper Fourth forms may sit in December for his second class examination and if successful, medically fit and old enough, will receive a nomination some time in 1940. It remains to be seen whether these nominations will be received by the school in such good time as to render sitting for the technical examination unnecessary and boys should not count on this.

No. 463, EXAMINATIONS—The practical music examination will be held on the 11th September.

No. 464, WITHDRAWALS—Y. Miles (Hosp.) and V. Miles (G. S.) will be withdrawn on the 1st September.

Arrangements should be made with Miss Beard direct for any tailors required for measuring.

No. 497, MEDICAL—The following is the procedure when children are taken ill during school hours:—

1. The child should be sent straight to hospital by whoever is taking the class at the time. There is no need to consult the Senior Master or Senior Mistress.
2. Another child should accompany it to hospital; in the case of very small ones, an older girl may be borrowed for the occasion.
3. A brief note should be sent with the child or its escort and a receipt obtained to show that it has arrived.
4. In no circumstances should a child be permitted merely to lie down in quarters; during school hours a child must be either in school or in hospital for there is no obligation on matrons to be in their quarters at that time and consequently children would be unguarded in empty bungalows or dormitories.

No. 518, SHOES—Girls' shoes and sandals will be distributed from a central store in future. Miss Priddy will run this and the new arrangement will come into force from September 1st.

The matrons of the six Girls Houses will in future only keep two pairs of sandals, one pair of brogues and two pairs of games shoes for each girl; they will maintain no reserve. When a girl has outgrown them, her matron will send her to the shoe store with a note to have them changed; the girl will be issued with a new or suitable part-worn pair and will leave her discarded ones in exchange. This transaction will not involve any entry in any book by anybody. Ordinary repairs will be done by Houses and through House Matrons as at present; Miss Priddy will not concern himself with them.

Matrons should send to Miss Priddy as soon as she is ready to receive them, all footwear surplus to actual present requirements. Miss Priddy will maintain a ledger and will take on these shoes that she receives now from matrons and those she obtains on indent from the Quartermaster. The only entries in this book should be (a) receipts from the Quartermaster, (b) issues to new children or when-ever no old pair is received in exchange, and (c) condemnation.

After September 1st, no House matron need indent for new shoes nor submit old ones for condemnation except at the end of the school year.

Girls should be sent to Miss Priddy at the following times:—

Mornings (except Sundays) ... between 7-10 and 7-40.

No. 541, DISCIPLINE—It appears to be necessary once more to repeat the order that all girls will change into games kit after afternoon school ; the only exception is that Guide uniform may be substituted on the appropriate days.

Five girls who attended the Boys' Final House Match in their school frocks gave as an excuse that they would not have had time to change back again in the interval between the end of the match and their own tea. This is not a valid excuse ; girls attend these matches for their own amusement and they must come away from them in sufficient time to enable them to change.

This order has now been re-published twice this month and repeated verbally by the Senior Mistress, a sorry comment on discipline. Any further infringement will be severely punished.

SANAWAR, 6TH SEPTEMBER 1939.

**Annexure to School Order No. 567, dated 6th  
September 1939.**

The following rules regarding the censorship of telegrams and letters are published for information :—

POSTAL CENSORSHIP.

2. In view of the serious international situation the Government of India have decided to impose with immediate effect censorship on all classes of postal communications (including money-orders and parcels) between places in British India (including Indian States) and countries outside British India and the Indian States. In carrying out this censorship effectively it is the desire of Government to cause the minimum of delay to correspondence and of inconvenience to the public. The following instructions are, therefore, notified and it is requested that the public will carefully observe them in their own interest and co-operate with the officers of government who have to exercise this censorship :—

The name and address of the sender should be stated in full on the cover of every postal article.

Private correspondence should be conducted in English if possible. Letters should be clearly written and should be as brief as possible.

If English is not employed the name of the language used should be endorsed on the cover of the postal article.

Correspondence in any language other than English is liable to considerable delay.

The envelopes used should bear as few stamps as possible and should contain no lining paper nor empty sheets.

Further instructions will be issued from time to time by the Chief Censor, India, with regard to any special measures that may be imposed in connection with censorship.

TELEGRAPH CENSORSHIP.

3. *Imposition of censorship*—In view of the present crisis the Government of India has decided to impose censorship on all telegraphic communications transmitted between places in British India (including the Indian States) and countries outside British India and the Indian States.

*Radio-telegraphy and Radio-telephony*—All radio-telegraphy and radio-telephony services will be closed to the public until further notice. The radio-telegraphy service to Port Blair, and certain other services, will be re-opened as soon as possible.

**The Reverend E. A. Evans, M. A.**

SANAWAR, 6TH SEPTEMBER, 1939.

---

*Restriction on the form and language used in telegrams*—in order to make the censorship of telegraphic communications, which is rendered necessary in the present emergency, as effective as possible, the public is earnestly invited to conform to the rules given below with regard to all telegrams intended for destinations outside British India, other than the Indian States.

No abbreviated addresses should be used.

All telegrams should be signed with the name and address of the sender in full.

Telegrams should be written in plain English or French, and in no other language. If French is used, however, delay in transmission may occur.

Failure to comply with these rules may lead to the delay or return of the telegrams to the sender.

4. The above rules do not apply to communications from one place in India to another place in India.

It is suggested that each group of parallel forms select and produce a play for the last week of term. Staff concerned should digest the contents of the book issued to them during this next few days and be prepared, on Saturday week, to say which play they prefer. It will probably be best that one of the Staff concerned accepts the role of actual producer and the others assist but it is hoped that the cast may be drawn from both or all three forms where there are more than one.

Lower Fourth and Upper Fourth forms should consider the possibility of drawing on "One Act Plays of To-day" with the same end in view.

No. 653, SCHOOLS—It has been reported that members of the Upper School have been using the Staff Common Room and also abusing the privilege of Sunday tennis.

As regards the first, the Common Room is strictly reserved for the Staff and the only reason for any boy or girl being there is to borrow a reference book from the Staff Library ; permission for this, even, must be obtained from the form master or mistress concerned and the book must be taken away ; the Common Room must not be treated as a public Library.

As regards the second, boys and girls must bear in mind that the Club is a private affair and that its members, in granting certain of the Upper School the privilege of using Tilley Court occasionally, had no intention of extending the invitation to cover the Club premises or other tennis courts. Any infringement of this privilege will undoubtedly lead to its withdrawal.

The attention of members of the Upper School should be drawn to this order.

I have to announce, with much regret, the death of Sir Alexander Waldemar Lawrence, Bart., grandson of the Founder of this school.

Sir Alexander was sixty-five at the time of his death and was a retired solicitor to the Treasury. Mrs. Evans and I had the pleasure of meeting him last year at his home in Chelsea where he has many most interesting relics and documents relating to his grandfather and to the founding of Sanawar.

Though he had never visited the school, Sir Alexander was much interested in it and sent his greeting and good wishes in a letter which was reproduced in the last Sanawarian but one.
